Spectrum Music Department Philosophy Statement

The music program at Spectrum begins with basic components of music literacy through a variety of styles. The vision is to instill a belief in each student through working collaboratively and finding individual growth through a performance-based curriculum. Students will gain leadership, responsibility, and commitment skills. The belief is to provide a positive outlet for students to show expression and creativity. In addition, students will become more well-rounded for today's society.

Spectrum Music Department Goals

- Students will participate in performance opportunities.
- Students will be able to analyze music and music performances.
- Students will be able to identify the components that make up a musical score and be able to adequately read sheet music.
- Students will be able to express emotion and creativity through individual composition and performance.
